DOINGS THE COUNTRY OVER

Albert G. Bryan, Jr., is dead at Lexington as the result of an auto accident.

Gov. Catts requested all people of Florida to pray Sunday for the success of the Allies in the war with Germany.

In a fit of jealousy, it is claimed, John Neighbors, living near Whitesburg, shot and killed his wife. He made his escape.

Berry Noyes, colored, who shot and killed Sheriff McBride at Lexington, Tenn., was hanged to a tree in the court-house yard there.

Fuel Administrator Garfield yesterday issued an order to all State Fuel Administrators discontinuing lightless nights, beginning next Thursday, until September 1.

Los Angeles and other towns in the Southern portion of California, were badly damaged by a cyclone Sunday afternoon. Three people were killed and much property damage resulted.

President Wilson is suffering from a burn on his hand which he received by grasping a hot exhaust pipe as he climbed from the fighting tank, Britannia, after a ride around the White House grounds.

The Sacred Heart Academy, at Louisville, was razed by fire, the loss being estimated between \$150,000 and \$200,000. The 200 girl pupils in the building at the time the fire broke out were marched to safety in perfect order, led by the nuns of the institution.

At a celebration of the founding of Rome, 753 years before the birth of Christ, Prince Colonna denounced the outrages inflicted by the new barbarians. He spoke from the Roman capitol before all the civic authorities and warned against a premature peace.

Steel has been given priority over all other shipments on railroads, thus ending a dispute between the Shipping Board and the Railroad Administration. The action was taken on the insistence of Charles W. Schwab, who urged all haste in rushing the ship program to completion.

The Kentucky leads all the States of the St. Louis Federal Reserve district in the sale of Liberty bonds. With a total of \$19,696,350, Kentucky has oversubscribed its quota. Indiana comes second for the district. For the nation nearly one-half of the \$3,000,000,000 minimum has been raised.

Socialism in America was branded as a form of German propaganda by Samuel Compers, speaking for the Liberty Loan meeting in Cleveland. "There is no such thing as an American Socialist party," Mr. Compers declared. "The American Socialist organization is merely a branch of the one in Germany."

Charging that it was through gross negligence on the part of the officers of the German Savings Fund Company Building Association, of Louisville, that George L. Martin was able to embezzle the sum of \$253,470.61, the Fidelity & Columbia Trust Company, trustee for the defunct association, brought suit to recover the whole amount.

The first suit growing out of the Pastime Theatre disaster at Winchester on March 9, was filed in the Clark county circuit court. Hubert Gibson, through his father and next friend, Frank Gibson, brought suit against Vic Bloomfield, Finda Minor, and Arthur Bloomfield, and Mrs. J. T. Luman, for \$25,000 alleging that he was permanently injured and rendered unable to earn a living.

IT SHOULD MAKE A MILLION FOR HIM

Cincinnati Man Discovers Drug That Loosens Corns So They Lift Out.

Good news spreads rapidly and druggists here are kept busy dispensing freezeme, which is said to loosen any corn so it lifts out with the fingers.

A quarter of an ounce costs very little at any store which handles drugs, but this is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn or toughened callus and instantly the soreness is relieved, and the corn or callus is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the surrounding skin.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

AN APPEAL

Mayor Hyman said in a Red Cross appeal in New York:

"Whatever we noncombatants can do for our soldiers seems trifling and futile beside what these young heroes are doing for us."

"Yes, the most generously contributing noncombatant, when he's compared with the fighting soldier, is a good deal in the position of the lady visitor at the case hospital: 'And so you've lost a leg?' the lady visitor said to a young patient. 'Yes, Ma'am,' said he. 'Poor dear!' said the visitor. 'Have a gumdrop!'"

Constipation and Indigestion.

These are twin evils. Persons suffering from indigestion are often troubled with constipation. Mrs. Robert Allison, Mattoon, Ill., writes that when she first moved to Mattoon she was a great sufferer from indigestion and constipation. Food distressed her and there was a feeling like a heavy weight pressing on her stomach and chest. She did not rest at night, and felt worn out a good part of the time. One bottle of Chamberlain's Tablets corrected this trouble so that she has since felt like a different person.

STANFORD HOUSEWIFE BECOMES NEW WOMAN

"All of our best doctors had given me up. I was unable to leave my bed for 16 weeks and was yellow as a pumpkin, besides the terrible stomach pains I suffered. Our druggist advised my husband to try May's Wonderful Remedy and it has saved my life. I am a new woman now." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. The Penny Drug Store, The Lincoln Pharmacy.

President Wilson, by a proclamation issued, placed German and Austrian women in the United States under the same restrictions as have prevailed for male enemy aliens. These restrictions are applicable only to women more than 14 years old, who have not been naturalized by their own or their male relatives' declarations of citizenship. German women were ordered to leave the District of Columbia by Monday midnight.

SCOUTS TO CO-OPERATE

Scout Master H. J. Brazelton received a wire this morning from Jas. E. West, of New York, Chief Scout Executive, asking that the Scouts of this county co-operate with the Liberty Bond committee in the sale of Liberty Bonds. The boys are just "rearing" to get to work and much good may be expected of them.

The Peoples Bank at Hustonville has some \$7,000 of \$8,000 in sales, but we were unable to get names of the buyers.

BIG CROWD; BUSINESS QUIET

A good crowd attended Lancaster court Monday but business was not brisk in any line. There were only a few cattle on the market and these were seemingly not in demand. A bunch of 400-pound heifers were taken down at \$37. A few of a better class sold at about 10-12c per pound. The horse and mule markets were also slow. Good mules sold at \$150 to \$225 but work mules were not in demand. Several horses sold at \$100 to \$150.

Garrard county people are proud, and justly so, of having "gone over the top" selling Liberty Loan Bonds. They have not stopped their effort, however, but on the contrary a number of ladies were at work on the streets Monday and they disposed of a number of the valuable holdings. It is the aim of the Garrard committee to sell at least \$200,000 worth, and some members of the committee say they will not be satisfied with less than \$225,000 worth.

The seed corn problem is being given much thought by Garrard farmers. A car-load of seed corn has been ordered and will be divided among many tillers of the soil. Garrard is a good corn county and it would be a calamity if the farmers there should get hold of corn that failed to germinate. Many of them say they propose to use every precaution. One painstaking farmer told the I. J. representative that he proposed testing the seed corn he bought, which isn't a bad idea.

There was less politics being talked Monday than in years. Democrats seem to be satisfied with their representatives in the Senate as well as in Congress and have no desire to make a change. A well posted politician told the writer that he was confident that Hon. Harvey Helm would have no opposition and that he really hoped he would not. "Harvey will get all right and now it's not a good time to make a change," he said.

BACK THE SCOUTS UP

The Boy Scouts of America are the government's dispatch bearers, and they have helped in every Liberty and many other drives. They have for their leader President Wilson, and many other statesmen whom we know and are capable leaders. The Boy Scouts of America, Troop No. 1, of Stanford, are doing good work in this present Liberty Loan drive and they are expecting the citizens of Stanford and Lincoln county to back them up. Every boy who sells ten or more bonds gets a medal awarded by the government for service, and the troop in the state selling the most gets a President's Flag, which Stanford would like to have. In order for the Scouts to win, they need your help. If you have not been asked to buy a bond you probably will be, and when they do, encourage them and they will appreciate the courtesy shown them. One of our well-known citizens said that the Boy Scout organization was the best thing that was ever started in Stanford. Now in order that the Scouts can live up to this sentiment, the citizens should back them up and don't forget to buy a bond when they come to you. Do your bit and buy a bond which helps to get the Kaiser's "roat."—Message No. 1, from Boy Scouts, Troop No. 1, Stanford, Ky.

A MODEL FARMER

Mr. J. Harris Baughman has converted the Burke farm near Shelby City into one of the most beautiful stock farms in Boyle county. The land is covered with a luxuriant blanket of blue grass and it would be difficult to find a more beautiful place.—Danville Advocate.

The Waynesburg Graded School Trustees bought of W. H. Higgins and Haselden Bros., two Caloric furnaces for their splendid new building, which is nearing completion. Charles E. Beck, of Hubble, sold to Ottis & Robinson 20 short yearling cattle at \$43.50.

Rheumatism Pains Relieved.

"I have used Chamberlain's Liniment for pains in the chest and lameness of the shoulders due to rheumatism, and am pleased to say that it has never failed to give me prompt relief," writes Mrs. S. N. Finch, Batavia, N. Y.

You will miss something if you miss "Civilization" at the open house, Monday night, April 29.

CANADIANS' GREAT SPEECHES

Lincoln county owes a debt of gratitude to Attorney J. Richard Bush, of Lexington, for bringing to Stanford Sunday afternoon two distinguished Canadian officers who have both seen and felt service in the British army. They have felt the service, for during their good work on the front one of them had an arm so badly crippled that it will be of no further service to him, while the other had the better portion of his right leg cut off by a shell. The gentlemen are Capt. Cameron and Lieut. MacPherson. They came to tell of their experience in the trenches and by it move some of those who have not done so to buy Liberty Loan Bonds. By 2:30 o'clock the court-house was crowded with people, many coming from the adjoining towns. Mr. P. M. Meltoch introduced Mr. Bush to the audience and the latter made a talk of some 15 or 20 minutes that stirred his hearers as they had not been this campaign. He struck straight from the shoulder and those who have failed to buy bonds, and had no excuse for their failure, must have cringed as he dealt his sledge hammer blows. Mr. Bush then introduced Capt. Cameron, who explained in detail as to raids and the other work of the boys "over there." The captain is an interesting talker and was given perfect attention. He was followed by Lieut. MacPherson, who was educated for a lawyer and who had enjoyed some practice in his home town called to the colors. He told in a most interesting and entertaining way all about his experience covering more than a year in France. To give his hearers an idea of the brutality of the Germans, he told of one of his superior officers running across a wounded Hun and caring for him by binding up his wound. As the officer left he showed his appreciation by throwing a bomb at him. Fortunately another Canadian saw him do his dirty work and was able to get the officer out of the way before the explosion. When he, Lieut. MacPherson, was wounded, another officer came to his rescue and was leaning over him trying to staunch his flowing wounds. A Hun saw him and fired, the officer falling dead on the wounded Lieutenant. Lieut. MacPherson told of a number of such incidents. He pleaded with the people to stand behind the boys who have offered their all for their country by buying Liberty Loan Bonds, adding, "If you knew how the boys will rejoice when they are told that more than has been asked has been given, you wouldn't hesitate, but you would buy bonds until you would have to sacrifice something, and you would not want to stop there." It was the consensus of opinion that the three splendid speeches had been delivered; that they will have a telling effect on the people of this good county; that there is no longer any doubt about the quota being disposed of and that we all have right to be proud of what Lincoln county people have done before the week ends.

"THE WHIP" GREAT PICTURE

Manager George Owens, of the opera house, had a splendid picture last night in "The Whip." A good crowd witnessed the first show, and a fair one the second, and the great picture was enjoyed by everyone. Manager Owens is giving his patrons some excellent pictures and is deserving of the good patronage he is getting. He made very little money out of "The Whip," having to give the owners of the film the major part of the door receipts but he has the satisfaction of knowing that he gave his patrons a treat.

ANOTHER OIL DRILL STARTED

Monroe Thompson and Asa B. Morgan, who were here from Waynesburg, said that another oil drill outfit started up that morning. It is on a lease near Green Briar school-house, but the gentlemen did not know whose machine it is. Messrs. Thompson and Morgan brought along a lot of corn for Mr. Frank Leslie Russell to test. They say that seed corn and Liberty Bonds are the topics of conversation in their end of the county.

NOTICE TO THE FARMERS

If you are anywhere behind with your farming, I would advise you to see and investigate the FORD TRACTOR. I can highly recommend it for your harrowing, rolling, dragging, or other heavy work on the farm. I have tried this machine out myself and find it to be just what we need to save time and labor. It is simple and inexpensive to operate. I will be glad to show you this wonderful tractor. H. C. Anderson, Stanford, Ky.

SELL THE COLLIER PLACE

Hughes & McCarty have sold to J. H. McClary, who has lived out West for some years, the Dave Collier place in Darstown for \$4,500. It contains about 20 acres of ground and is fairly well improved. By the way, these gentlemen are preparing to sub-divide Walter O. Walker's farm out on the Somerset pike and sell the several small farms that will result from the division. They will have a sale about May 20th.

\$9,350 AT WAYNESBURG

Cashier M. E. Wheelon, of the Waynesburg Deposit Bank, writes that the amount of Liberty Loan Bonds sold at his place has been increased \$300, and that the total amount now is \$9,300. Good! Keep the splendid work going.

BOUGHT OUT HIS COMPETITOR

L. B. Combs, the expert auto man of Danville, has bought out Joseph Wolf, owner of the Boyle County Auto Garage and will run both places. Mr. Wolf is in the draft and expects to be called to colors right away.

THE LATEST WAR NEWS

The Germans are planning to hit the allied line another of their sledge hammer blows. Within the coming week two great turning movements are expected to be launched by the enemy; one will pivot on the village of Robecq, the other will develop at or near Menin. The purpose is to cut deep into the promontory that extends into the German line that terminates on the old Arras-Lens front in hope that the British may be forced to withdraw from Arras without having a chance to defend their position. The lull continues on the entire Western front.

The Germans suffered severe losses when a strong attack against the American lines was made in an effort to disorganize the United States forces. Two airplanes were brought down and a number of others driven off. The Teutons were routed after suffering heavy losses. The Belgian and French troops displayed two separate organizations of Germans after ground on the allied line had been taken. The Teutons on the greater part of the British front are reorganizing for another attack. The Allies are ready to contest every inch of ground.

Austria sees the handwriting on the wall. Germany's claims for the present offensive have not materialized and a feeling of despair pervades the dual monarchy, according to dispatches received in Washington from Farnce. The attitude is described in an article in the Vienna Arbeiter Zeitung, which declares that heavy clouds are gathering in Bohemia and among the Jugo-Slavs. Even a decisive victory will bring only a hunger peace, the people believe, as the monarchy is bankrupt and without friends among the nations.

Realization in Germany that the submarine campaign is not accomplishing what was claimed for it, has caused bitter criticism of the Admiralty, according to dispatches from Switzerland, which further stated that Deputies in the Reichstag, representing every party, were severe in their criticism, while Admiral von Capelle had constantly to resort to the plea of "extenuating circumstances."

From Harbin, Manchuria, comes the report that the Bolshevik authorities have ordered the munitions and supplies that have accumulated at Vladivostok to be shipped to European Russia. The Entente Allies have long been concerned lest these valuable materials of war fall into the hands of the Germans. Japanese and British marines were recently landed at Vladivostok and now it is unofficially reported that increased anti-Japanese demonstrations there have made it necessary to arrange for the sending of reinforcements. The battle in Flanders and Picardy has completely overshadowed the Russo-Japanese situation. The presence of Japanese troops at Vladivostok, however, is no less a problem and an international tangle is feared. The question is expected to be given full consideration after the great battles now in progress have subsided.

Streams of German wounded from France and Flanders are so great that hospitals, monasteries, convents and schools in many Belgian cities are filled to overflowing, and the Germans now are requisitioning even private houses for hospitals. The American steamship Lake Moor, sailing on her maiden voyage with a naval crew aboard, was sunk by an enemy submarine in European waters about midnight April 11 and five officers and 39 men are missing. The British casualties during the past week totaled 12,368.

J. R. BUSH SPEAKS FRIDAY

Attorney J. R. Bush, whose introductory remarks at the speaking at the court-house Sunday evening brought forth such deafening applause, has agreed to speak at the court-house here Friday afternoon at 3 o'clock. President Wilson has declared Friday, 26th, a general holiday for the selling of Liberty Loan Bonds and the people of this county propose to make the day a memorable one. Mr. Bush, who is a Lincoln county boy, will be the chief orator of the occasion but speeches will be made by a number of other good talkers. An effort will be made to get the stores and other business houses to close that all may go and hear the gentlemen. Tell all your friends about the speaking and join them here.

HELM WILL BE UNOPPOSED

There has been talk about this and that Democrat's desire to make the race for Congress in the Eighth District, but as matters stand just now it looks very much as if there will be no opposition to the re-nomination of Representative Harvey Helm, of Stanford. The most recently mentioned as a probability was State Senator Jay W. Harlan, but one of his close friends this week informed the writer that that brilliant young man isn't even a possibility.—Thos. ROBINSON'S

THE INTERIOR JOURNAL

E. C. Walton and J. H. Wright

Entered at the postoffice at Stanford, Ky., as second class mail matter.

Dr. Ben L. Bruner, who made such a poor showing in his race against Ed Morrow for the Republican nomination for governor, persists that he is in the race for U. S. senator and will be nominated and elected. Poor fellow, he seems to be a victim of paranoia. There isn't even a Democrat in the state that can give Ollie James a decent race for the office and a Republican, especially of the Bruner variety, would have no more chance to beat him than the hellish huns have to win this war. The man who is closest to the president than any other person will be Eclipse in the race. Those who go up against him will not attain even the dignity of also runs. They will be nowhere.

Owen Moore, the husband of Mary Pickford, has sued Douglas Fairbanks for \$250,000 for alienating her affections. Instead of beating the stuffing out of him if Mary is not sinning as much as she is sinned against. But Moore is evidently more concerned about losing his meal ticket than the love of his wife. She is said to pay income tax on a million or more and making more money right along than any other movie star. As Doug already has a wife, it would seem that he should be content and let other men's wives alone. But man never is but always to be blessed.

Good for Preacher Turner! Some cowardly cur wrote Rev. H. G. Turner, pastor of the Methodist church, of Danville, that his activity in the sale of Liberty Loan Bonds would cause him to get his mouth mashed. Of course the skunk did not sign his name. Mr. Turner comes out in a card in his home papers stating that he will give \$500 to the person who wrote the letter if he will acknowledge it. He did not say as much in his card, but the way it "listens" to us the writer may expect a little more than the aforesaid \$500 if he is apprehended.

There is one thing sure. If we do not loan our money to the government, which offers the best security and good interest, we will have to give it up in taxes and remember taxes are never returned. From every standpoint the success of the liberty loan is important. It will show patriotism and good financial judgment, keep down taxes and prove to the kaiser that every man in this country is willing to do all he can to win the war and send the Hapsburgs and the Hohenzollerns to hades.

A gentleman just back from Letcher county tells us that he never saw such enthusiasm as is manifest there for the liberty loan. The county has already exceeded its quota of \$125,000 and expects as in the case of the second loan to more than treble it. That sounds good and what is said of Letcher is largely true of other mountain counties. Mountaineers are always free and love everything with the name of liberty attached.

Charlie Chaplin has been accepted for the draft and says he will offer no excuse for exemption. Those who have seen his inane performance in the moving pictures felt sure he might offer idiocy as a reason for not going in the army and be exempted without question. Of all the film artists Chaplin's tiresome antics are the most disgusting. So far as we are concerned he can go to the trenches and forget to come back.

When representatives of Willard and Fulton, the heavyweight pugilists, applied to the governor of Nevada for permission to fight in that State he gave them permission to do all the fighting they wanted to at the front but none in Nevada.

"Uncle Bill" Schooler, former editor of the Somerset News, has gone to Twin Falls, Iowa, to take a position on the "Times" of that city. Broer Schooler made a legion of friends at Somerset, who were loath to give him up.

The sad news is sent broadcast that cigarettes have advanced in price again. Higher and higher go the necessities of life.

"Office has no attraction for me," shouted Col. Roosevelt in a speech up North, and the people who heard him just "laughed."

Buy-Buy Liberty Bonds or bye-bye Liberty.

Russia's debts are piling mountain high with practically no revenue coming in to support the Government. Minister of Finance Gukovsky reported to the Central Executive Committee of the Soldiers' and Workmen's Delegates. He said the semi-annual expenditures would amount to 40,000,000,000 rubles and that all the revenue would total only 31,000,000,000.

Some Good Advice.
"Don't think much of your own methods. Watch other people's ways and learn from them." This is good advice, especially when bilious or constipated. You will find many people who use Chamberlain's Tablets for these ailments with the best results, and will do well to follow their example.

Kentucky distilleries with a maximum output of 192,000 bushels of cornmeal or rye flour a day from 167 corn mills are ready to begin grinding food for the folks at home, while the white flour goes to the allies and American soldiers at the front.

The government desires that individuals purchase these bonds instead of corporations—to show that the people of this country are prosecuting the war.

This Bank recommends these bonds as the very best and safest investment. It will loan the money to persons investing in them at the rate of 4 1-4 per cent, per annum, for six months.

"Gels-It"—2 Drops—Then to the Dance!

"Goodnight to Corn Pains—Corns Peel Off With 'Gels-It'."

"Say, girls, you can laugh at tight shoes, or damp, corn-pulling weather, big bumpy corns, calluses on the soles of your feet, corns between the toes, hard and soft corns, if you will just touch the corn or callus with a few drops of 'Gels-It'."

What a blessed relief it gives to corn pain! You won't limp any more; you can enjoy the dance every minute. Then to see how that corn or callus will come right off complete, like a banana peel and without the least pain, is just wonderful. 'Gels-It' is the biggest seller among corn removers in the world today, simply because it is so wonderfully simple and always works. Be sure you get 'Gels-It'."

"Gels-It," the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. M'd by E. Lawrence & Co., Chicago, Ill.

Sold in Stanford and recommended as the world's best corn remedy by The Penny Drug Store.

SOMERSET WHITEWASHED!

Those who didn't come out to the high school grounds Friday afternoon missed a mighty good ball game, when Stanford's team whitewashed Somerset 6 to 0.

THE HUSTONVILLE SPEAKING

The following gentlemen spoke to a reasonably good crowd at Hustonville Saturday afternoon: Messrs. P. M. McRoberts, H. J. Brazelton, K. S. Alcorn and J. S. Hocker. Liberty Loan Bonds was the subject and each of the gentlemen gave good reasons why every person should own one and be glad to buy at least one.

Mr. Alcorn was the principal speaker and he made an excellent talk. Many bonds were disposed of as will be seen by reference to the honor roll elsewhere. The gentlemen had intended going on to McKinney and speak that night, but the drenching rain prevented. They will speak there tomorrow, Wednesday night, at 7:30, when a big crowd is promised.

LYNCH A HUSTLING TOWN

Mr. and Mrs. J. Frank Smith have had as their guests Mr. and Mrs. G. A. Smith, of Lynch, Harlan county. Mr. Smith is cashier of the Bank of Lynch, which although organized last October, has a deposit of over \$100,000, with a capital of \$30,000.

Sixteen days after the bank was opened Cashier Smith sold \$53,750 worth of Liberty Loan Bonds. He says he expects to sell at least \$100,000 worth of the present issue. The town of Lynch is only a few weeks older than the bank, and yet it has a population of some 2,500. "It is the best town its size and age in the State or any other State," said Mr. Smith, with pardonable pride.

SPOKE AT KINGS MOUNTAIN

Messrs. P. M. McRoberts, K. S. Alcorn, W. H. Shank's, M. E. Wheel- don and Frank Leslie Russell spoke to a fairly good crowd at Kings Mountain Friday night and told their hearers of the advantage of buying Liberty Bonds and their duty as well to do so. Prof. D. B. Hubbard, of the graded school, and his assistant, V. C. Gilliland, very cleverly had the school building lighted and made comfortable and were otherwise helpful during the evening. Good talks were made by each of the gentlemen and the result was very satisfactory, as will be seen by reading the honor roll published elsewhere.

HEAR BUSH NEXT FRIDAY

You are cordially invited to come to Stanford next Friday afternoon, April 26th, and hear Attorney J. Richard Bush, of Lexington, speak on Liberty Loan Bonds, and the importance of each person buying one. There will be other speakers and the occasion will be made a most interesting one. Friday is a general holiday. Spend the afternoon profitably in Stanford.

HAD FINGER BLOWN OFF

A ten-year-old son of Thomas Leasure, who lives in the Rush Branch section, found a dynamite cartridge the other day and having the curiosity to see what it was, used a rock to break it open. The explosion that followed caused him to lose the index finger of his right hand. He was otherwise hurt by the terrific explosion.

BAUGHMAN TO HAVE SALE

H. C. Baughman, who sold his farm the other day, will sell his stock, crops, etc., at public sale on Thursday, May 9th. See advertisement later.

WITH THE CHURCHES

Rev. C. H. Greer will preach at Neal's Creek church Saturday night at 7:30.

The Missionary Society of the Baptist church will meet with Mrs. R. E. Lee Ruple at 2:30 Friday afternoon.

A dispatch from Shelbyville says that Rev. D. M. Walker, of that city, will leave for France about May 1st to engage in Y. M. C. A. work.

Because of the meetings at the Church of Christ on East Main street the union prayer meeting, which would have been held at the Baptist church will not be held this week, giving all an opportunity to attend the former meeting.

Rev. C. H. Greer, Presiding Elder, will hold quarterly meeting at Stanford next Sunday, preaching at the court-house at 10:45, and will administer the communion at close of sermon. Quarterly Conference will follow immediately.

The meeting conducted at the Methodist church in Somerset by Evangelist L. B. Bridges resulted in 100 or more confessions. It came to a close last of the week and the evangelist left for Gainesville, Ga., to conduct another meeting.

The Presbyterian church will be represented at the spring meeting of Presbytery at Pleasant Grove, April 23 to 25, by Mr. J. B. Paxton and Rev. P. L. Bruce. The Woman's Society will not hold its regular meeting this week, but will attend the Presbyterial meeting at Danville on Thursday and Friday.

MAY MEAN A SHIFT

The withdrawal of Cate Powers from the congressional race in the Eleventh district may have a bearing on the contest for the Republican nomination for United States Senator. It is now understood that either Judge B. J. Bethurum, of Somerset, who has indicated his purpose to run for Senator, or his brother, Judge L. W. Bethurum, of Mt. Vernon, will get in the race for the congressional nomination, and in either event this would take the former out of the senatorial contest. Another incentive for such a change in this programme on the part of Judge B. J. Bethurum is that the congressional race offers a decidedly more flattering prospect than that held out to the opponent of Senator Ollie M. James. The Bethurum brothers, it is said, will decide between them as to who shall become the congressional candidate. Both are active and influential in mountain G. O. P. politics.—Political column Louisville Times.

A HAT ORDER FROM AFAR

Miss Ella Mae Saunders, one of Stanford's popular milliners, had an order Monday from Mrs. John Collier, of Sonita, Arizona, for a hat, which she sent today. This is quite a compliment to Miss Saunders' ability as a milliner and she and her friends are duly appreciative of it.

Secretary McAdoo yesterday asked Governors of all States to declare next Friday a State legal holiday, as President Wilson has proclaimed it a national holiday, to aid the Liberty day celebrations, by which it is hoped to boost the sales of Liberty Loan bonds well toward the \$3,000,000,000 minimum. The \$1,500,000,000 mark was passed yesterday.

AT CRAB ORCHARD THURSDAY

Hon. Clay Kaufman and Rev. J. R. Moorman, of Lancaster, will address the Liberty Service League at the Crab Orchard Baptist church, beginning at 8 o'clock Thursday night. A general invitation is extended the public.

American casualties during the battle at Seicheprey are estimated at more than 200. The German losses are believed to have been between 300 and 400.

The Western Union Telegraph Company has subscribed \$3,000,000 for Liberty Loan Bonds.

Don't fail to see Civilization Monday night, April 29, at the opera house.

CHOICE GOODS

My fine black jack, Choice Goods, will make the season of 1918 at my home, two miles from Stanford on the Somerset pike, at

\$10 to insure a Living Colt
He is a splendid individual, as black as a coal with white points. Has proven himself a good breeder, and has plenty of bone and action. In fact he is just the sort of jack to breed to get mule colts that will sell high, as colts will be more valuable as they get older.

COMBINED PONY STALLION

I have bought a very handsome combined pony stallion, which I will stand at my farm in the West End at the low price of

\$10 to insure a living colt
He is a great individual and those thinking of breeding to a pony should not fail to see him before they do so. He will bear the closest inspection and scrutiny.

BETTER TO LEND THAN TO CRIPPLE COUNTRY

If you are a patriot you are willing to give and to sacrifice. This is your country. It belongs to you, and to your children. It came from your fathers to you as a glorious heritage. It is worth preserving for those who come after you. It is not asking you to risk your life, to endure the hardships of the camp, the agonies of the trench and the shell swept field, and the torture of the hospital. Others are enduring these things for you. They are paying with their lives and mangled bodies the price of your safety and exemption. They are being made captives that you may remain free. Through our country's call they are asking your aid. Can you refuse?

All that is asked is your help with your dollars, by buying Liberty Bonds. Your country could ask much more. You can give nothing less.

You will remember that this is not a gift but an investment—an investment based upon the best possible security. The full faith and credit of the United States stands back of these bonds. If they are not good, then every other investment you have is worthless, for these bonds underlie all other values. The taxing power of the Federal authorities can subject the entire assessable wealth of the country, including all other securities and property you own, to meet these Government obligations; and this power will be exercised to the extent needed to protect them.

The interest paid is a good return upon your money, when the granted immunity from State and local taxes is taken into account. Is it not better that you lend to the Government now this money which will be finally returned to you and which will do much towards winning the war, rather than cripple your country by your refusal and, if the war is lost, pay vastly more in taxes?

Nature Cures, The Doctor Takes the Fee.

There is an old saying that "Nature cures, the doctor takes the fee," but as everyone knows you can help Nature very much and thereby enable it to effect a cure in much less time than is usually required. This is particularly true of colds. Chamberlain's Cough Remedy relieves the lungs, liquefies the tough mucus and aids in its expectoration, allays the cough and aids Nature in restoring the system to a healthy condition.
